

AGA GateMaster Smart Hub User Manual

Wi-Fi Control of a Driveway Gate

Introduction

AGA GateMaster Smart Hub is an easy to use device and application that allows control of a driveway gate from a smartphone. It can handle various remote-control frequencies (300M, 315M, 330M, 433M, 868M) and create a virtual remote control to operate the gate. A camera may be added and viewed from the smartphone.

Register an account with an email address

A code will be sent to the email address to verify

Enter the code and then create a password

Settings and configuration

Connect Smartphone to the Smart Hub

There are several ways to connect to a Smart Hub from the X-House App:

- Press the + in the top right corner, Press Add Hub, Press NEW Wi-Fi Hub, Power on the Hub, Press the Reset button on the Hub, and the App will automatically connect
- Press the [-] in the top right corner to start the scanner, then scan the QR code sticker on the bottom of the Hub
- Ask someone with a smartphone who already has the Hub connected to display the QR code on their smartphone and then scan the code from on their screen; To display the QR code, select Hub, then press +, then press Experience Share

Add A Device: Remote Transmitter

In the X-House app select the Hub

Press + in the top right corner

Select Learn Remote

Select the number of buttons the remote has

Press Start to Learn

Push and hold the button on the remote until the green checkmark appear

Add a Camera

Connect a video camera to your home router

In the X-House app, select the Hub

Press the + symbol at the top right and select Add Camera

Select your router, enter your Wi-Fi password, press Next step

Power on your camera

When you hear the connection beep tone, press Next step

Turn up the volume on your cell phone

Hold the phone close to the camera and press Next step

Scan the barcode with your smart phone or tablet to take you to our YouTube page where you can find our latest install and troubleshooting videos to assist you in the setup of your GateMaster system.
